Pure Will is a fast love story. Yes, it has that "typical bad boy" and the "good girl" but these two characters are so equal. William and Camden are complete contrasts to one another from upbringing to experiences...yet they are both inherently good, both easy to be loved and give love, and most importantly both are smart.

I loved and enjoyed every single thing about this book. From the main characters: Cam and Will, to the sub characters then to the multi- POV. I never would've thought that multi-POV would work but Kristi Pelton nailed it. I was either smiling or crying while reading this book. It's so good that you feel every emotion that they're feeling.

Pure Will (2000) About book: Awesome book with great story line, strong characters and wit. I have never wanted a spin-off novella on the parents but Will's mom and dad, Abby and Drew, were too cute I would love to know more about their beginning.

review 1: 5 amazing stars!!! I just really no expecting to enjoy this book this much after some of the reviews. Do I think it was a little strange that Will slept with Cams roommate first of course, but things happen for a reason.
