SOLUTIONS TO SELECTED PROBLEMS FROM RUDIN DAVID SEAL Abstract. I became bored sometime this August 2006, and de-cided to review some of my analysis, by reading my old analysis book[1] from Junior year. While I'm at it, I decided to type up some solutions to a few problems that I scratched out solutions

This book works great as a reference (after having learned Real & Complex Analysis), but is a pain in the ass to learn it from. If you are looking for a good first text on Measure theory, I would recommend Eli Stein's book on Measure Theory or Folland's Real Analysis Everything contained in the book is useful, though - there are no throwaway theorems or rehashed proofs of earlier material.
