How is Chegg Study better than a printed Probability And Statistics 4th Edition student solution manual from the bookstore? Our interactive player makes it easy to find solutions to Probability And Statistics 4th Edition problems you're working on - just go to the chapter for your book.

Probability And Statistics 4th Edition Textbook Solutions ...

Since the sum of the probabilities must be 1, both the probability of a head and the probability of a tail must be $1/2$. More generally, if the outcome of some process must be one of n different outcomes, and if these outcomes are equally likely to occur, then the probability of each outcome is $1/n$.
