### Chart Resolution - MultiCharts

Display resolution. Jump to navigation Jump to search. This chart shows the most common display resolutions, with the color of each resolution type indicating the display ratio (e.g. red indicates a 4:3 ratio).

### Display resolution - Wikipedia

The resolution measurement with the test chart is a little complicated because, what you get is the so called modulated transfer function (MTF), see the reference below. And, you need to calculate the contrast of your pattern image.

### How to use the Resolution test charts? - ResearchGate

Resolution Chart. The cropped section shows the part of the chart that tests the camera's vertical resolution (ability to see fine detail) at the centre of the frame. The figures in the image captions give a measure of the camera's performance in line widths per picture height x100. The higher the value, the better the detail resolution and...
