Overview. Decision-making can be regarded as a problem-solving activity yielding a solution deemed to be optimal, or at least satisfactory. It is therefore a process which can be more or less rational or irrational and can be based on explicit or tacit knowledge and beliefs. Tacit knowledge is often used to fill the gaps in complex decision making processes.

Everything You Know About Addiction is Wrong According to Johann Hari, author of Chasing the Scream: The First and Last Days of the War on Drugs, everything we think we know about addiction is wrong. After conducting three years of field research for his book, Hari concluded that addiction may be more of a social illness than a medical or psychological illness.
