A relative age dating activity by christine mclelland answers

Teaching about Earth's history is a challenge for all teachers. Time factors of millions and billions of years is difficult even for adults to comprehend. However, "relative" dating or time can be an easy concept for students to learn. In this activity, students begin a sequencing activity with familiar items — letters written on cards.

WHO'S ON FIRST? A RELATIVE DATING ACTIVITY

The first answer I get from the students is usually along the lines of, "It is written down/from historians". I follow up with the question, "Well, how do we know what happened before there were people to write things down?" , eliciting from the students the realization that the Earth's history is "written" in fossils and rocks that we can analyze.

Seventh grade Lesson Relative Age of Rocks | BetterLesson
