4 Comments. The rule of 72 is a quick rule of thumb to help you understand how quickly your money can grow. It works like this: Take the return of an investment, say 9% per year. Divide 72 by 9 and you get 8. That is the number of years it will take to double your investment. If you make 5% a year, it'll take 14.4 years. You can turn it around.
