6. The primary effect of cocaine on the nervous system is that cocaine blocks the re-uptake of _____. Monoamines Transamines Catecholamine Monoamine oxidase; 7. Which of the following amino acids can function as a neurotransmitter in the CNS? Leucine Glutamic acid Lysine Valine; 8.

Nervous System Practice Test Questions - Test Prep Review

Due to a power outage, class was cancelled the day before our 2016 Nervous system test. This video takes the place of the in class review I would normally present. Category

Nervous System Test Review

Central nervous system The central nervous system is composed of millions of nerve and glial cells, together with blood vessels and a little connective tissue. The nerve cells, or neurons, are characterized by many processes and are specialized for reception and transmission of signals.

Chapter 3: The nervous system - dartmouth.edu

The human nervous system includes the brain and spinal cord (central nervous system) and nerves that run throughout the body (peripheral nervous system). Nerve Cells. Although the nervous system is very complex, nervous tissue consists of just two basic types of nerve cells: neurons and glial cells.

664 www.ck12.org CHAPTER 22 The Nervous and Endocrine Systems

The picture you have in your mind of the nervous system probably includes the brain, the nervous tissue contained within the cranium, and the spinal cord, the extension of nervous tissue within the vertebral column. That suggests it is made of two organs—and you may not even think of the spinal cord as an organ—but the nervous system is a very complex structure.

12.1 Basic Structure and Function of the Nervous System ...

Additionally, the nervous tissue that reach out from the brain and spinal cord to the rest of the body (nerves) are also part of the nervous system. We can anatomically divide the nervous system into two major regions: the central nervous system (CNS) is the brain and spinal cord, the peripheral nervous system (PNS) is the nerves (Figure 1).

12.1 Structure and Function of the Nervous System ...

Nervous System Review Sheet 1. List three functions of the nervous system and give a specific example of each. • Reception of stimuli from environment (internal or external) and relay of info to CNS (Sensory division of PNS) – e.g. Receptors in your ear send a signal to the brain when the bell rings.
