### **Psychological Testing Anne Anastasi**

Psychological testing is the administration of psychological tests, which are designed to be "an objective and standardized measure of a sample of behavior". The term sample of behavior refers to an individual's performance on tasks that have usually been prescribed beforehand. The samples of behavior that make up a paper-and-pencil test, the most common type of test, are a series of items.

### **Psychological testing - Wikipedia**

Psychological evaluation is defined as a way of assessing an individual's behavior, personality, cognitive abilities, and several other domains. The purpose behind many modern psychological evaluations is to try to pinpoint what is happening in someone's psychological life that may be inhibiting their ability to behave or feel in more appropriate or constructive ways; it is the mental ...
