The verb "to psych " can mean to mentally prepare, to excite, or to intimidate psychologically. The use of the word "psych" as an slang interjection means "just kidding" or "fooled you", from the third meaning, in that someone was believing what you were saying previously. You have "psyched them ... out", the original slang terminology.

Best answer: Personally, I believe that this stems from the "fear of the unknown." People always feel a need to know how something will comfortably work out, and when they do not know the answer to something, they feel frightened about what could happen.

## **Psychology | Yahoo Answers**

Psychology is the study of the mind, its thought, feeling and behaviour. It is an academic discipline which involves the scientific study of mental faculties, functions and behaviours.. Psychology deals mainly with humans but also sometimes with nonhuman animals. Because psychology may be difficult to study as a whole, psychologists often only look at small parts of it at one time.
