In my Chemistry class we are in groups of 4-5 and have to build a hot air balloon out of tissue paper. We are being graded competitively, meaning who evers group flies the highest gets full points and second place gets a few points off and so on. There are 7 groups. How can my group make ours fly higher? I NEED an A on this project or I risk summer school.

RESEARCH: Write a one-page paper on hot-air balloons. Be sure to include a bibliography of the book or books you use. Background: When air or any other gas gets hot and expands, it gets less dense (lighter) because the same amount of air occupies a larger space. Hot-air balloons fly because they contain warmer, lighter air.
