Protist Classification Saga Continues Answers

21.1 Protist Classification - The Saga Continues. Protists are eukaryotes that are not members of the plant, animal, or fungi kingdoms. Today's protists include groups whose ancestors were among the very last to split from the organisms that gave rise to plants, animals, and fungi. 21.2 Protist Structure and Function.

Chapter 21 - Protists and Fungi Flashcards | Quizlet

Biology chapter 21 Protista and fungi. Two gametes (originating from different organisms of the same species or from the same organism) combine to produce a zygote, which develops into a diploid plant of the sporophyte generation. This sporophyte produces spores by meiosis, which germinate and develop into a gametophyte of the next generation.
