History of CT and Evolution of Spiral Scanners. The term tomography stems from the Greek word "tomos" meaning "section". 1 Scientists and mathematicians have described, "body section radiography" in many different ways since the 1920's. It wasn't until the 1960's after much research, that the world's first CT scanner emerged. 1,2 The inventor was Godfrey Newbold Hounsfield, born in England ...

Evolutionary psychology is a theoretical approach in the social and natural sciences that examines psychological structure from a modern evolutionary perspective. It seeks to identify which human psychological traits are evolved adaptations – that is, the functional products of natural selection or sexual selection in human evolution. Adaptationist thinking about physiological mechanisms ...

In telecommunication, Long-Term Evolution (LTE) is a standard for wireless broadband communication for mobile devices and data terminals, based on the GSM/EDGE and UMTS/HSPA technologies. It increases the capacity and speed using a different radio interface together with core network improvements. The standard is developed by the 3GPP (3rd Generation Partnership Project) and is specified in ...
