Programming Logic and Design Fifth Edition solution manual?

I have an assignment I need help with. The problem goes like this. Assume you have a bank account that compounds interest on a yearly basis. In other words, if you deposit $100 for two years at 4 percent interest, at the end of one year you will have $104. At the end of two years, you will have the $104 plus 4 percent of that, or $108.16.
