Solution Manual for Real and Complex Analysis – Walter Rudin
I'm studying Rudin's Real and Complex Analysis by myself and it would be really nice if I could find a solution manual to all/part of the exercises at the end of the chapters. Official solution manuals for books of that level almost never exist. You may be able to find something that a person made ...

This book works great as a reference (after having learned Real & Complex Analysis), but is a pain in the ass to learn it from. If you are looking for a good first text on Measure theory, I would recommend Eli Stein's book on Measure Theory or Folland's Real Analysis Everything contained in the book is useful, though - there are no throwaway theorems or rehashed proofs of earlier material.
